HIGHLY IMPORTANT DISCOVERY.

Pousel's Pabulum Vitæ

Has now gained its position before the public as

THE ONLY REMEDY

yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis, and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most

ASTONISHING SUCCESS

in the treatment of the above complaints.

Its unabated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES

And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature, it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians by reason of the recklessness with which worthless and injurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation, the agent, however, assures the public in all sincerity, that this medicine is not only *perfectly safe, and free from all other deleterious ingredients* but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure

Consumption by using One to Six Bottles.
Bronchitis by using One to Three Bottles.
Coughs by using less than One Bottle.
Colds by using it Two to Six Days.
Bleeding of the Lungs by using less than One Bottle.
Hoarseness by using less than One Bottle.
Soreness of the Chest by using less than One Bottle.

Price $3 per bottle, accompanied by a Treatise. For sale by

F. J. LAFORME, Sole Agent, No. 5 Milk Street, Boston, Mass.

The Mutiny on board the Whaleship Junior.

Christmas eve had been passed in cheerfulness and peace by officers and crew, and in recognition of the [illegible] associations of the day, the captain, before retiring for the night, treated each of the crew to an all glass of spirits, little dreaming [illegible] even then [illegible] self and his officers were doomed [illegible] and that the eyes which seemed to [illegible] him, [illegible] minding them of the Christian holiday, so far away from home and the [illegible] habitations of Christianity, were in fact gleaming with the fullest hate. The [illegible] having been accomplished, apparently [illegible] [illegible] The captain [illegible] [illegible] The [illegible] [illegible] [illegible] watchers [illegible] [illegible] the cabin, and [illegible] asleep in their berths. [illegible] a portion of [illegible] [illegible] removed in the event of an alarm from the cabin. [illegible] Plummer and his four associates with guns [illegible] and cocked. Silently [illegible] taken at each of the berths, the muzzles of the guns nearly touching them.—All is ready, and Plummer gives the word "fire." The sleepers start, and as they attempt to turn in [illegible] the unwonted sound, their bodies are pierced with balls. Three enter the body of the captain and he lives only to exclaim "I'm [illegible]." [illegible] take effect [illegible] the third mate, and so near is the muzzle that the powder sets fire to his red clothes on him. The third mate wounded, rises, and attempts to escape, but is murdered [illegible] with a ponderous whaling spade, or lance. [illegible] By this time the larger portion of the crew have been aroused from their sleep, and the mutineers find it necessary to return in [illegible] cabin, and with [illegible] secure the submission of those who are of [illegible] admitted into the conspiracy. [illegible] mates avail themselves, [illegible] who hide themselves, to have their lives [illegible] and because their services were needed by the mutineers, in the navigation of the vessel to some point on the Australian coast from which they can proceed to the interior. [illegible] a new series of crimes, as robbers and highwaymen. The next morning the bodies of the two murdered officers are dragged up from the cabin by a rope attached to their heels, and thrown overboard. The scene now changes, and we have another of a different character, having its prototype in an old imaginary [illegible] [illegible] [illegible] the women of [illegible] are smitten with their careless gallantry and gay display. Plummer takes the name of [illegible] and is about to be married to a young lady, who has become infatuated with the romantic mystery of his appearance among them and [illegible] his personal bearing. [illegible] fancy vanishes, and Plummer with [illegible] on his arms, and [illegible] dressed in a blue [illegible] and [illegible] drab trowsers, looks [illegible] felt [illegible] he sits in the court room with his associates, [illegible] the [illegible] principal features [illegible] the deep.—*Boston Courier.*

DIARRHOEA.—As this is the season when the diarrhoea prevails to the greatest extent, we publish the following [illegible] Journal of Health, which, we believe, is [illegible] good authority among [illegible] men.

"Diarrhoea [illegible] [illegible] more time. Cholera is nothing more than exaggerated diarrhoea. [illegible] arrested, [illegible] [illegible] It may be well for travellers to know that the first, the most important, and the most indispensable item in the cure of [illegible] bowels, is absolute quietude [illegible]. Nature herself prompts this [illegible] [illegible] common rice parched [illegible] and then taken [illegible] butter.—Drink little or [illegible] [illegible] ice may be eaten or swallowed [illegible]. Every step in starting [illegible] aggravates the disease. If [illegible] compulsory, the misfortune [illegible] necessity may be lessened by having a [illegible] flannel bound tightly around the abdomen so as to be doubled in front, and kept well in its place. In the practice of [illegible] we have never failed to notice a great [illegible] result to follow these observances.

PRENTICE'S LAST.—[illegible] the marriage at Auburn of Mr. [illegible] to Miss Eva Smiley, [illegible] to ability that he tickled her with [illegible] and she laughed a consent.

THE REASON WHY.—It is [illegible] as a reason why the Queen's message [illegible] that it was written and [illegible] tenant of [illegible] weeks and [illegible], when the Agamemnon and [illegible] Portsmouth on their first trip, [illegible] forwarded when the cable was laid and working order. Consequently it remained in the hands of that official until the [illegible] attempt was made. The Queen could not, therefore, give either place or date to her message.

POLYGAMY FORBIDDEN BY THE MORMON BOOK. It appears by an extract from the Book of Mormon, that polygamy is positively forbidden. It is an innovation and a corruption of their faith. It seems that Brigham Young pays no more respect to his bible than Mr. Buchanan does to the Cincinnati platform.—*Prov. Jour.*

EXPERIMENTING ON THE CABLE. It appears that the utmost success of Mr. Whitehouse of which the public thus far have any knowledge, is to send through the entire Atlantic Cable nineteen words in eighteen minutes. Hughes, on the other hand has transmitted six words in one minute. The experiment was made in England under disadvantages, and he is now confident that he can send through ten words a minute each way, and at the same time making twenty words a minute. But no arrangement has been entered into with him by the telegraph company for a renewed trial of his instrument, and the [illegible] start has been exclusively in the possession of Mr Whitehouse, who has spent, it is said, over $100,000 in his experiments on the cable since it was manufactured. It is fair to presume, says the Boston Journal, that Mr. Hughes will yet have the privilege of fairly testing the powers of his invention upon the submarged cable.

THE BANK OF MUTUAL REDEMPTION went into operation yesterday, in the rooms formerly occupied by the Webster Bank, which has moved into the new free stone building at the corner of State and Congress streets. The following are the officers of the Bank of Mutual Redemption:—James G. Carney, President, Henry P. Shuld, Cashier; James H.

The Post says in regard to this new bank:

Not much has been said about it, of late, in State street, but while as much as can be gathered, the present plan of the country banks in its favor, is to keep two redemption accounts—one at the Suffolk, and one at the new bank. In this way the two redeeming agents will move peaceably along, side by side, until time has shown the popular lly and ability of the Mutual Redemption Bank.

We have received the following correspondence for publication, from the committee appointed at the Exeter Convention to inform Mr Washburn of his nomination:

(Copy.)

To the Hon Israel Washburn, Jr. Orono

SIR—The Committee appointed by the Republican Congressional Convention for the Fifth District, held at Exeter on the 19 inst., to inform the nominee of said Convention of his nomination, have pleased to inform you that you were unanimously nominated as the candidate of the Republican party in the 5 District, for Representative in the next Congress of the United States.

We are, with due respect,

RUFUS A. SNOW
Hampden, Aug 20 1856

Orono, Aug 22 1856.

Gentlemen

I have the honor to acknowledge the receipt of your communication of yesterday informing me that at the Republican Convention of the Fifth District, held at Exeter on the 19 inst., I was "unanimously nominated as the candidate of the Republican party of said District for Representative in the next Congress of the United States."

The nomination was made in the generous reliance of the Republicans of Somerset, whose right it was, under a arrangement entered into two years ago, to present to the Convention the candidate of its choice. In bringing my name before that body for acceptance, they have done me distinguished honor, for which I return them my most sincere and grateful acknowledgements.

I accept the nomination with a deep sense of obligation and gratitude to the Republicans of the District for this renewed expression of their confidence. Should I be elected again, it will be my aim to serve the people of the District from whom I have received so many kindnesses, in such manner as I shall believe will promote their best interests, and the welfare and honor of the country.

I am, with great respect
Your ob't servt,
I. WASHBURN, Jr.

Great Expenses for Federal Offices Holders.

That our readers may see how the National office holders under this democratic administration are spending their time (which is paid for with the people's money,) in the most miserable and lazy dissipation serving, we copy the following letters which have recently been brought to light, in the Sixth District, and published in the *Eleventh American*. They are undoubtedly genuine. They are a good, it will be seen by Thomas D. Jones, UNITED STATES COLLECTOR at Ellsworth. It will also be seen that this Collector, instead of attending to the business for which he is paid from the people's treasury, IS RECOMMENDING HIS LIGHT KEEPERS TO NEGLECT THEIR LIGHT HOUSES, AND GO ABOUT ELECTIONEERING AND VOTING FOR BRADBURY—and tells them THEIR EXPENSES SHALL BE PAID for so doing out of their own assessments—"Black Republicans" are to be allowed to "look after the Lights," provided they can be kept sharp from "polls by no doing.

ELLSWORTH, Aug. 6, 1856.

Friend Graves

I have written Norton that he had better leave his white paper page so that he can come back and vote. If he does not go to the Saddleback Ledge, he will lose his vote and that must not be as we must *every vote to elect Bradbury*. [This is so—and the more votes you attempt to give for him the more you will "want." You must make arrangements so that you can go, at home at election. You ought to be at home a week before election.

The State Committee have made an assessment on the officeholders, any expenses that you are at in getting home or getting any one to take care of your Light in your absence will be so much paid towards your assessment.

I think we can defeat Bradbury, but we must look after every vote

Let me hear from you.

Yours truly,
THOS D. JONES.

ELLSWORTH, Aug 5, 1856.

Friend Higgins

You must arrange matters so as to be at home yourself to elect on, and two weeks before, and step to at Norton go to Brooklin—Get two Black Republicans from Fox Island *to look after the light*, and pay them well while Norton is absent. The State Committee have made an assessment of the Office-holders.—Any expenses that you may be at will be conducted from your assessment. Everything looks well, but we want, and must have every vote.

Get home as soon as you can.

Yours truly,
JOS. L. JONES.

ELLSWORTH, Aug 5, 1856.

SIR:—I have not heard from Washington yet in regard to your appointment, but am expecting it every day. Patrick has left, and you had better go on immediately. I would like to have you leave your wife at Graves' until after election. If not carry your wife to Saddleback Ledge you will lose your right to vote anywhere, and every vote this year is of importance. Therefore I want you to let your wife stay where she is. Graves will be glad to pay her for her doing until after election.—You can come off just before the election and vote at Brooklin, and then take your wife on to the Ledge, that will enable Graves to come home and vote. I have written Higgins that you must come off to vote. The election is on the 13th of September.

Yours truly,
THOS. D. JONES

Resolved That the wisdom, ability and patriotism of President Buchanan in the administration of our government, prove him to be a worthy successor of Washington, Jefferson, and Jackson.—*Fifth District Democratic Resolutions.*

As President Buchanan does not follow what modern democrats call "the well examples of Washington and Jefferson," in the matter of slavery, we do not clearly see how he can be called a worthy successor of those early patriots. Either the "wisdom" of Buchanan is folly, or Washington and Jefferson were stupid dolts.

Mr. Abraham Sanborn reported the above resolves. Mr. Sanborn was once a Whig, and thought he had a little of either the "wisdom, ability or patriotism," of James Buchanan. Moreover, Mr. Sanborn has in times past, on divers "Fourth of July's," been enthusiastically jubilant over the principles of the Declaration of Independence (now repudiated and denied by President Buchanan) and the Boston Colonies and New York Herald—the Chester and the Hammonds—of modern democracy,)—and has who with all his heart believed in following those "evil examples" of Washington and Jefferson. Where now is Mr. Sanborn? Alas where!

The Methodist Church upon Slavery.

Report of the Anti-Slavery Committee of the E. M. Conference, made at Bangor, May, 1848.

The great assumption on which slavery rests is man's right of property in man. This assumption is wrong. It is a violation of God's law, and is repugnant to Christianity and to the spirit and purpose of the framers of the Constitution of these United States.

Slavery is demoralizing and cruel; it thing God hates. It confers power, without responsibility—commands labor without recompense—inflicts wrongs, without redress—punishment, without crime; it treats accountable immortal beings from their rightful relations to God, and places them in circumstances where they are deprived of the bodies given rights to right moral action. It makes them dependent on the will of others whereby they shall receive religious instruction—or know and worship the living God—enjoy the ordinances of the Gospel—perform the duties and cherish the endearments of husband and wife, parent and child—preserve their chastity, or regard the claims of justice and humanity.

Such are some of the fruits of slavery—not imaginary and sensational, but the necessary and unavoidable outgrowths of the wicked assumption on which it rests.

To these wrongs this race is always exposed, and in his experience they often assume their worst form and degree. And when they do not, he is degraded as a human being, robbed of his natural rights and exposed to the danger of passing into the hands of a master who may inflict on him all that avarice and passion can suggest.

Slavery reduces men, made in the image of God, to property, and treats them as things reduced in the eye of the law, his rights do and must fall from him.

These are the systems influence on its present victims, and in making strenuous efforts to transmit this heritage of wrong to the latest generation.

Such being the character and aim of the slave system, it has a direct bearing on the dearest hopes of humanity—hopes protected by our free institutions, and cherished by the Gospel.

Historically considered, it has been found true that freedom in one department has always had a favorable influence on its enlargement. To illustrate:—The partial deliverance of the church from ecclesiastical tyranny by the spirit of the Reformation was a great step toward liberty, and it powerfully reacted in favor of civil liberty; and in turn, civil liberty was favorable to religious liberty. And thus it will be with the slave power. The sooner the chains are struck off from the slave the less will be the obstructions to universal freedom, civil and religious. But the longer the negro wears his chains, the greater and more exacting will be the demands of the system on the rights of humanity, and if perpetuated, will come to be a central power of oppression, before the usurpations of which freedom must fall, and then follow the dissolution of government, civil war and universal anarchy and ruin.

Therefore our solemn duties and responsibilities in reference to this system of oppression. Our responsibilities are direct. We are endowed with the rights of freemen. The elective franchise gives every man a voice and a responsibility.

Therefore, believing slavery to be radically wrong, and spreading sin full in the sight of God, it is our duty to resist its growth or extension to the utmost of our power. And as the spirit of the Constitution of these United States, and the purpose of its framers was to establish *liberty*, it is our constitutional privilege and duty to resist the introduction of slavery into the Territories, and to resist the introduction of new slave territory into the Union.

When we reflect on our large professions of liberty, our free institutions, and the declared basis of our government, and contrast them with the oppression and tyranny of slavery, we are compelled to admit our gross political inconsistency. But as inconsistent as our conduct to the slave is, politically considered, it is still more so when viewed in the light of the Gospel. The whole New Testament is in opposition to the principles and practice of slavery, and when the Gospel is received and acted upon, it must remove the foundation on which the system rests, viz:—the right of property in man, and his subjection to arbitrary will.

In view of the foregoing, we submit the following resolutions:

Whereas, The General Rule of our church forbids the traffic in slaves, and is against property in man as in violation of God's law, therefore,

Resolved, That no slaveholder, maintaining the right of property in man, should be eligible to membership in our church, where emancipation can be effected.

Resolved, That we will use our influence for the introduction of a new chapter into the Book of Discipline, instead of the present chapter—embodying the sentiments of the preceding resolution, and harmonizing the Discipline of the church therewith.

Resolved, That we will support such men and measures in the government as will resist the growth and extension of slavery, and will employ all the agencies at their control in a constitutional and christian way for its ultimate abolition.

L. J. PARTCH, Ch'n.

[The resolutions were adopted.

A Trip to Patten—The New Settlements at the North.

NUMBER V.

MOUNT KATAHDIN.

From the top of a high hill in Patten, over which the road passes, you have the most extensive view that can be had from any place on the road from Bangor to the Aroostook river. It is well worth a ride from Bangor to Patten to see the magnificent view which may be had here on a clear day. To the east, you overlook the valley of the Mattawamkeag for a long distance, almost an unbroken wilderness, and beyond this you see the settlements at Houlton and the neighboring towns, more than twenty miles distant. Northward you have before you a large extent of country, containing a range of mountains and hills, commencing at Mars Hill and running south-westerly to the Katahdin range. On the west, Mount Katahdin rises up majestically from the level lands which approach it from the south, and stands the monarch among all the mountains in Maine. It looks very near, apparently but a few miles distant, when in reality its summit is more than twenty miles from you. Behind it to the northward rush away a succession of lofty peaks until lost in the distance.

I have seen Katahdin from many points; but, think the mountain appears to better advantage from this place than any other I have seen it from. Unlike most other mountains, it rises up suddenly from the plain, with steep declivities, and stands a solitary and solid buttress, apparently to support the lesser mountains which cluster behind it.

This mountain has been ascended many times, several times by females, and it would be quite a place of resort, if the country was settled around it, so as to afford better conveniences for its ascent. The time will come when visitors will be frequent, and as with the White Hills, people will come a long distance to sojourn on and about it, and be delighted with its alpine scenery.

As to the village of Patten, it has been so often described in your paper, that need not say much about it. It is a pattern village, and shines in the midst of the wilderness like a bright gem in the desert. But a small part of the township is settled. The western part is still a wilderness. There is not a waste lot in the township, and when all the lots are taken up and cultivated it is farms, here will be a large town.

LOCAL AND MAINE NEWS.

THE ENCAMPMENT AT BELFAST.—As heretofore announced, there is to be a grand encampment of a portion of the troops of several Divisions of Volunteer Militia at Belfast, commencing Tuesday, August 31st, and continuing three days, under the supervision of Adjutant General Webster. The troops will be reviewed by Governor Morrill and his aids, by General Cushman and his staff, Colonel Norcross and staff of the 9th Division, and probably other military gentlemen will be present.

Among the Companies at the encampment will be the Bangor Light Infantry, Capt. John L. Hodsdon; the Grafton Guards, Capt. Michael Boyle; Brewer Artillery, Capt. J. G. Swan; Veazie Rifles, Capt. S. L. Morris; Milo Artillery, Capt. W. H. Stinchfield; Orland Rifle Company, Capt. Ira Keyes; Belfast Light Infantry, Capt. Thos. H. Marshall; Belfast Artillery, Capt. H. W. Cunningham; Rockland Light Infantry, Capt. H. G. Berry; Rockland Rifle Company, Capt. ——; Norway Light Infantry, Capt. Wm. Wm Virgin; Lewiston Light Infantry, Capt. ——; and probably several other companies.

The Companies from this city and vicinity will go down in the river steamers on Tuesday morning at 6 o'clock, and return on Thursday evening. There will probably be a large number of visitors from all parts of the State, and the encampment will present a very animated and attractive scene.

ARREST OF A HARBOR THIEF.—Yesterday afternoon, Deputy Marshals Adams and Emerson discovered and arrested a young man named Thomas Davis aged about 19, who confessed to have robbed Emanuel Frank Rogers, a seaman on board the schooner Arcturus, of money, jewelry and clothing to the amount of $43, on Monday last. The police got track of Davis yesterday, and arrested him in Harkerville. He was taken before the Police Court, and ordered to recognize in the sum of $300, for appearance at the Supreme Court. For want thereof he was committed.

THE REFORM SCHOOL.—The Advertiser says it at as the labors of the late faithful Superintendent, Mr Wm R Lincoln, were to close last Sunday, after the services of the Sunday School, the Trustees at the Chapel, in the presence of the whole school, the assistants, teachers and other friends, formally tendered to Mr Lincoln their vote of thanks for his very faithful services, and at the same time introduced the new Superintendent, the Hon. Seth Seamman, of Saco.

The scene was deeply impressive and interesting and the feeling manifested by all there fair, shows that there was a substratum of human affection and kind sympathy there, which only required to be cultivated to make them good members of society. Dr Mills, one of the Trustees, after some remarks to the boys, communicated the vote of thanks to Mr Lincoln, who replied with appropriate words, taking leave both of the Trustees, Assistants and Teachers.

THE MAINE ASSOCIATION OF THE NEW JERUSALEM CHURCH will hold its twenty third annual session in this city, at Concert Hall, commencing on Friday, (to morrow), the 29th inst, at 10 o'clock A. M. Public religious exercises will be held each day at 11½ o'clock.—Rev. Samuel F. Dike of Bath, and Rev. William B. Hayden of Portland, are expected to be present. A lecture will be delivered on Friday evening by Abner W. Paine, Esq., of this city.

We are indebted to Bryant's Express for Boston papers in advance of the mail, per steamer Sanford.

RUNAWAY HORSE.—On Tuesday, a horse belonging to D. R. Stockwell, Esq., got frightened and dashed up Exchange street, coming in contact with a double team and completely smashing the carriage to which he was attached.

Yesterday, the same horse started from Cumberland Street, and ran down French street to Veazie's wharf, bringing up against a pile of pickets without material damage.

THE EXCURSION of the St. John's (Episcopal) Sabbath School, to Lemon Pond will take place to day (Thursday) if the weather is suitable—leaving Bangor by an extra train about 11 A. M. Tickets 25 cents.

THE EXECUTION AT AUBURN.—The Lewiston Falls Journal says that arrangements are nearly completed for the execution of Cox and Williams, on Friday next. A few privileged individuals will be accommodated with seats upon the scaffold. We agree with the Bath Times in saying that such a privilege we should not highly esteem, and our readers will excuse us if we employ no special means to spread the sickening details before them. We have no ambition to see a fellow being choked to death, nor to describe such a spectacle.

POCKET PICKED.—Joseph H Uran of Sullivan, had his pocket picked of $75 on board the steamer Rockland on a late trip from Rockland to Sullivan.

Geo W Spratt Esq., late proprietor of the Calais Livery Stable, has sold out his establishment to Mr E A Barry, and removed to Bangor, where he will in future prosecute his business.—*St. Croix Herald*

DIGEST OF THE "MAINE REPORTS," BY WM WIRT VIRGIN, *Counsellor at Law*.—We take the following notice from the Oxford Democrat of last week: Seven years since the Hon. Philip Eastman prepared and published a digest of the Judicial decisions of this State, contained in the Maine Reports, commencing with the first volume of Greenleaf, and ending with the 26th. This digest was found to save the legal profession a vast amount of labor. Since the publication of that work the legal opinions of our Supreme Judicial Court have been accumulating until 41 volumes have been issued, and two more are in process of publication. From this it will be perceived that fifteen volumes have been issued since the publication of Eastman's Digest, and of course are not included in that work. Since the 30th the size of the volumes have been increased about one-fourth. For several years past the profession has been laboring under the same embarrassments as that it did prior to the publication of the work of Mr. Eastman. In the preparation of cases, lawyers have had to wade through more than a dozen large volumes, one by one, when the same results could have been reached with but tenth the amount of labor, by the aid of a good digest.

We are happy to announce to our professional brethren and all others interested, that the desideratum long needed will soon be reached, through the labors of WILLIAM WIRT VIRGIN, Esq., of Norway. He is preparing and will in the course of a few months have ready for the press a Digest of the Maine Reports, from the 13th to the 42d volume inclusive,—the proof sheets of the last volume being furnished him by the reporter. We have through the politeness of the author been permitted to examine a portion of the manuscript of the forthcoming work. In our judgment, the *whole arrangement* of the work is excellent, and could not when by one of greater experience be rendered more perfect. We also happen to know that a portion of this same manuscript has been thoroughly examined by one of the most distinguished members of the present Supreme Judicial Court of this State, and that the compilation and plan meets his unqualified approval and approbation. In some respects we think the new Digest may be considered an improvement upon the work of Mr Eastman. In compiling and arranging this new embodiment of the opinions of our Supreme Court, Mr. Virgin has exhibited great research, industry and method. Every subject is arranged under its proper head and in its appropriate place. The new Digest will be a work of great practical benefit and use to the legal profession. We understand that it will be issued and ready for sale by the first of December next.

DR. PAYSON'S CLASS IN ELECTROPATHY. We have the pleasure to inform his friends that Dr Deane has formed a class in this city, for instruction in the theory and practice of Electropathy, of which he is the author and teacher, and that he will commence his regular course of instruction at the Bangor House on Friday evening, August 29th, at 7½ o'clock.

There will be a meeting of the Washington Temperance Association this evening at 7½ o'clock, at the City Hall.

LAUNCH. A beautiful freighting ship of 885 tons, named the Nauset, was launched on Tuesday from the yard of Mr. Paul Curtis, at East Boston. She is owned by David Snow, Esq., and will be commanded by Capt. Westcott, of Castine, formerly of the ship Wellfleet.

The proposed general telegraphic celebration on the 1st of September, will probably prove a failure—that is it will not take place to any great extent as most of the cities have already celebrated.

A KENNEBEC MAN KILLED. Mr. H. H. Simmons, a native of Hallowell, and brother of Capt. Charles Simmons, formerly resident in this city, was killed in Mississippi City recently by the cook in an establishment where he (Simmons) was steward. The cook had been discharged, and laid it to Simmons.

CASE OF DROWSY. In the case of Miss Mary L Jennings, who recently died in Leeds of dysmian dropsy, 124 lbs. of fluid were drawn from her in the course of four months.

The people of Machias had a grand time on Tuesday evening last, in honor of the completion of the Atlantic telegraph. Nearly every building in the place was brilliantly illuminated, and the band discoursed excellent music to the crowds which thronged our streets. *Machias Republican.*

MECHANICS' EXCURSION. On Tuesday, thirteen car loads of people went out to Paris, fifty miles on the Grand Trunk Road from Portland, on an excursion under the auspices of the Mechanics' Association.

ANOTHER CASE OF DROWNING AT Scarboro on Monday, three boys, sons of Aaron McKenney, A. S. Deering, and Simon Milliken, went to Duck Pond to bathe. Two of them went into the water, McKenney and Deering—but neither could swim. Getting beyond their depth, young McKenney sank, and was drowned. Young Deering kept above water till Milliken threw him a piece of a board, which he caught and was saved. The lad that was lost was about thirteen years old.

CONVENTIONS. We were shown, a few days since, by Mr Perkins, Cashier, a $20 counterfeit bill on the Waterville Bank, which on its face was as perfect as the true bill, and after a close examination with the aid of a powerful magnifying glass, not the least difference could be detected, except in the appearance of the signature of the cashier. But the true bills of all denominations of that bank contain a check back, while the back of the counterfeit is plain. This is a most dangerous counterfeit, and the public should be further guarded. *Skowhegan Clarion*

In the 6th district Hon. Ben Bradbury is marching over the course in the most approved style.—*Bath Times.*

As Bradbury depends for votes altogether upon his success in cheating the people, the tune to which he travels is the Rogue's March—and this, as the Times truly says, is "the most approved style" of marching, with modern democrats. The people, however, will countermarch him on the 13th of September.

A dairy stable was recently burned at Cincinnati, together with 71 cows, 4 horses and eight other animals. The scene, and the piteous cries of the burning animals were horrible.

An address of welcome was read, to which the General made a feeling and appropriate reply, after the delivery of which the assemblage gave the accustomed three cheers. After the address and hearty cheers. After the address was read and the bells rung—a salute was fired and the bells rung—the procession was then re-formed, and soon afterwards the General to Temperance Hall, where he held a levee. A large number of citizens availed themselves of the opportunity to express their respects to the heroic defender of Kars. Triumphal arches were erected, on the Triumphal arches were erected, on the line of march, and were decorated suitable mottoes; flying streamers were suspended in various parts of the city. P. K.

It has been said of old—"this is a world of wonders"—and to the observer is daily presented something new and wonderful, both in nature and art. Men of genius and skill are constantly engaged in hunting out that which may become of value to the public and bring emolument to scientists, as from all these wonders which have been brought before the world, and particularly our Medical Faculty, there has been nothing as yet surpassing Perry Davis' Pain Killer, which is the most valuable family medicine now in use, for many internal and external complaints that flesh is heir to. The cheapness puts of the first, you have half of all the drug store, where you can get a bottle—from 12 cents to $1.

MAINE STATE

AGRICULTURAL SOCIETY.

THE objects of the Society are to bring together the best specimens of Stock, and productions of Household Manufactures, and labor saving Machines of all descriptions; and hereby stimulate a laudable emulation to excel in every department of Industry. We see no way of bringing about these desirable results so satisfactorily as by an exhibition, where the public may freely examine and pass upon the merits of stock or articles exhibited. We believe such Exhibitions are the medium best calculated to bring to notice the popular merits of farm stock and productions and the best kinds in machine, carriage, or fabric, much better understood than by any other system of advertising. We desire to make the Exhibition of 1858 surpass all former ones.

We invite all to exhibit their stock, productions, fabrics, and machinery of any kind. The Rotunda of the State House and adjacent Halls have been granted to the Society for its use, and a large building is now being erected for the exhibition of heavy articles, farming utensils, &c.,

Liberal arrangements have been made for the transportation of stock, and articles for exhibition, either one or both ways, free, on presentation of the Secretary's certificate that such stock or articles have been on exhibition, and not Exhibitors are requested to give two weeks' notice to the Superintendents of the Roads over which they may design to pass—of the amount of stock and articles, and the Station at which it is to be taken upon the Road, so that suitable provision may be made for transportation. The Roads that will convey Stock, &c., *free*, are as follows:—Portland, Saco, and Portsmouth, Kennebec and Portland, Somerset and Kennebec Railroads. The Roads that will convey Stock, &c., *at half price*, are as follows.—Penobscot and Kennebec, Atlantic and St. Lawrence, York and Cumberland Railroads.

The Roads that offer to convey Stock *free* will run a Special Train on Monday and Saturday of the week of the Exhibition—other days, by regular trains, at *half price*. Articles may be sent any time during the week *previous* at half price. (All stock at the owner's risk.)

The Show and Fair will be holden at Augusta, on the 21st, 22d, 23d and 24th of September, 1858. Contributors who intend exhibiting articles in the Halls are requested to make application for space to the Superintendent, Capt. Charles Stinson, as early as one week previous to the time of Exhibition, so that the least delay possible may be had in the arrangements.

Our former Exhibitions have been of a high order, and productive of much good, and still hoping that a general interest towards our Society and its efforts may be felt throughout the State.

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837,

76 State St., opposite Kilby st., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also, in Great Britain, France, and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE, Late Commissioner of Patents.

Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17 h, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

FIRE AND MARINE INSURANCE.

CHARTERED BY LEGISLATURE, JUNE, 1855.

Authorized Capital, $500,000. *Cash Capital paid in and securely invested*, $150,000.

OBED P. MILLER, Secretary. WARD COWING, President.

BOARD OF DIRECTORS.—Ward Cowing, William A. Bradford, Samuel B. Darling, Edward B. Perry, George W. Hall, F. C. Gardiner, Obed P. Miller, Thomas A. Doyle, William B. Ryder, George Cleveland, Philip Ryder.

THIS Company Insures against Loss or Damage by Fire, on Stores, Merchandise, Dwellings, Mills, Manufactories, Hotels, &c., also on Marine and Inland Transportation Cargo Risks at the ordinary rates of premium.

Losses Promptly and Equitably Adjusted and Paid.

All premiums are made specific when Policies are issued, and are to be prepaid in money; and no further assessment in case of loss is to be made on the parties so insured. The advantages of a Stock System, which precludes the possibility of an assessment, are very obvious.

The Board of Directors have authorized the issues of Policies on country risks, detached on very low terms.

The Company expect to deserve the confidence of the public, by doing business on as favorable terms as any other similar institution, and by the utmost fairness and liberality in all their dealings.

Policies granted and issued to parties effecting Insurance, at once without delay, by the undersigned, at his office.

LINCOLN'S WATER PROOF BLACKING, AND LEATHER PRESERVATIVE.

Keep your Feet dry and you will seldom need a Physician.

IS it not a truth that when the feet are often wet, it is one of the greatest causes of colds and consumption? It is a truth that when leather is often wet and dried, it soon becomes hard, stiff, and cracks; but when it is water-proof this is remedied. By the application of this preservative, it remains soft, and entirely impervious to water.

After being engaged for 25 years in the manufacture of Leather in all its branches, and being often troubled with wet feet myself, I was led to experimenting on different compositions, and found it easy to make it water-proof, but at the same time extremely injurious to the leather. At last by a chemical process, I discovered a preparation which perfectly harmonizes with the astringent properties with which leather is tanned. It will not only make leather water-proof, but it likewise softens the leather, and it will

Positively wear twice as long.

"I have now used it for three years, and a large part of that time have worked in a wet Tannery, with my boots constantly in water, and have not had my feet wet during that time. I can therefore in all confidence, recommend it to the public as the best article in the market.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, purifying the blood, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

Bilious attacks are cured, and, what is better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents nightmare.

Only one dose taken at night loosens the bowels gently, and cures costiveness.

One dose taken after each meal will cure Dyspepsia.

One dose of two teaspoonfuls will always relieve Sick Headache.

Only one dose immediately relieves Cholic, while

One dose often repeated is a sure cure for Cholera Morbus, and a preventive of Cholera.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for Jaundice removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures Chronic Diarrhoea in its worst forms, while Summer and Bowel Complaints yield almost to the first dose.

A few bottles will cure Dropsy by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for Fever and Ague, Chill Fever, and all Fevers of a Bilious type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

American Safety Paper

Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper.—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.
Bank Bills—$18 for 1000 sheets.
Bills of Exchange—$25 for 1000 sheets.
Promissory Notes—40 cts. per lb.
Sight and Time Drafts—$25 for 1000 sheets.
Insurance Policies—40 cts. per lb.
Railroad Stocks and Bonds—40 cts. per lb.
Bank and State Stocks—40 cts. per lb.
Bonds and Mortgages—40 cts. per lb.
Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts. a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moistures of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.
